Subject: Re: Business against the ACP

Governor Cooper and Mr. Regan,

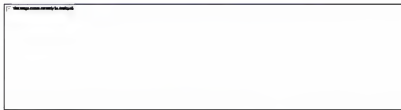

Thank you both for the delay on the decision regarding the ACP. I hope ultimately this decision will be a resounding "NO!" on behalf of all citizens and our precious environment.

Gratefully,

Amanda Robertson

Dear Governor Cooper and Mr. Regan,

As a North Carolina business owner who supports businesses in our state in developing sustainability plans and Corporate Social Responsibility policies, I am wholly against continued pursuits in fossil fuels. Duke Energy would literally take land from citizens through eminent domain for their own private, corporate gain. This is NOT what it means to be "socially responsible" as a company. This is the very opposite. And it is wrong.

There are many, many reasons why the ACP would be an environmental catastrophe for North Carolina. I am certain you are both aware of these reasons so I won't waste your time listing them here. But it is time we moved to a 100% renewable future. And quickly. Climate change must be taken into consideration, along with all of the environmental hazards this pipeline would mean for our state environment, citizens, and the business community. We must move forward and make sound decisions for the future of North Carolina and the prosperity of our state. Thank you for your leadership in this matter.

Respectfully,

Amanda Robertson
